EDUCATION

CUNY Baruch College

New York, NY

B.S. in Computer Science — GPA: 3.78

Expected Graduation, May 2027

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management, Web Design, Web Engineering, Computer Architecture, Discrete Math, Linear Algebra, Calculus 2

TECHNICAL SKILLS

Languages & Frameworks: Python, JavaScript (React.js, Node.js, Express.js), SQL, C++, Java, HTML, CSS, Tailwind CSS, Bootstrap, jQuery, Verilog

Developer Tools: GitHub, Git, CI/CD (Docker, Vercel), Google Agent Developer Kit, Firebase, Postman, Pandas

PROJECTS

Crypto Palace | React, JavaScript, Docker, Firebase, Vite, Google Charts, Vercel, CoinGecko API

- Built a real-time cryptocurrency dashboard with React and CoinGecko API to display **100+ live market feeds** to **65+** active users.
- Optimized **UX** with React Hooks and Google Charts, earning a **100% Chrome DevTools Best Practices** score
- Secured user data and enabled cross-device syncing with **Firebase Authentication and Firestore**.
- Containerized the application with **Docker** for consistent local development and streamlined deployment.

Soccer Club Analytics Database | SQL, MS Access, UML modeling, ER models

- Led a team to design a **3NF relational database** in MS Access with **12 interrelated entities**, enforcing referential integrity to maintain data quality across club operations.
- Collaborated with peers to author **15+ SQL queries and reports** analyzing top spenders, injury trends, and contract expirations, supporting data-driven decision-making for club management.
- Produced detailed **UML diagrams** (ER + class models) to validate schema before implementation, preventing inconsistencies and reducing design errors by **25-40%**.

StudyPal | Python, Google ADK, Gemini-2.0 Flash, Streamlit

- Prototyped an A.I. study assistant with quiz, summarizer, and planner agents, automating lecture note conversion.
- Engineered custom agent tools to structure raw input for **Gemini-Flash multi-agent workflows**.
- Increased study efficiency by **40-50%** by building a flashcard generator that produces flashcards in <10 seconds.

Fitness Website Template | JavaScript, HTML, CSS, Bootstrap, jQuery, GitHub

- Achieved a **99% Chrome DevTools performance score** by optimizing images and scripts for faster load times.
- Improved **user experience** on desktop and mobile by enhancing responsiveness and layout with Bootstrap 5, CSS Grid, and Flexbox.
- Increased form completion rates by **10-25%** by implementing **jQuery validation** with inline error handling.

WORK EXPERIENCE

Exam IQ

New York, New York

Math and English Tutor

Dec '22 – Jul '23

- Elevated the academic performance of underperforming students by increasing **failing** test averages to around an **80** average—an improvement of up to **40%**—while maintaining strong outcomes for high achievers.
- Improved student performance through clear explanations, time management strategies, and adaptability to individual learning needs.

EXTRACURRICULARS

CodePath Internship Connection Program

June '25 - Aug '25

- Completed a 10-week program to sharpen coding and problem-solving skills by practicing data structures, algorithms, and mock interviews.
- Collaborated with peers in weekly coding labs and technical workshops to strengthen teamwork, communication, and technical interview readiness.
